QuickTime

realD 3D

rovi guide

GUIDEplus®+ GEMSTAR

Do not display any still part of the image for a long period

In such cases the still part of the image remains dimly on the plasma screen ("image retention"). This is not considered a malfunction and is not covered by the warranty.

Typical still image parts:
- Channel number, channel logo and other logos
- Still or moving pictures viewed in 4:3 or 14:9 aspect ratio

- Video games
- Images from PC

To avoid image retention, the contrast is lowered automatically and the screen becomes dim after a few minutes if no signals are sent or no operations are performed. (p. 112)

Notice for DVB / Data broadcasting / IPTV functions

- This TV is designed to meet the standards (as of August, 2011) of DVB-T (MPEG2 and MPEG4-AVC(H.264)) digital terrestrial services, DVB-C (MPEG2 and MPEG4-AVC(H.264)) digital cable services and DVB-S (MPEG2 and MPEG4-AVC(H.264)) digital satellite services.
  Consult your local dealer for availability of DVB-T or DVB-S services in your area.
  Consult your cable service provider for availability of DVB-C services with this TV.
- This TV may not work correctly with the signal which does not meet the standards of DVB-T, DVB-C or DVB-S.
- Not all the features are available depending on the country, area, broadcaster, service provider, satellite and network environment.
- Not all CI modules work properly with this TV. Consult your service provider about the available CI module.
- This TV may not work correctly with CI module that is not approved by the service provider.
- Additional fees may be charged depending on the service provider.
- The compatibility with future services is not guaranteed.
- Check the latest information on the available services at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

Safety Precautions

Warning

Handling the mains plug and lead
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
  - An apparatus with CLASS I construction shall be connected to a mains socket outlet with a protective earthing connection.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not use any mains lead other than that provided with this TV. (This may cause fire or electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
  - Do not move the TV with the lead plugged in the socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high-temperature object.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
  - Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

AC 220-240 V 50 / 60 Hz

Power source
- This TV is designed to operate on AC 220-240 V, 50 / 60 Hz.

Do not remove covers and NEVER modify the TV yourself
- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not expose to direct sunlight and other sources of heat
- Avoid exposing the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

Do not expose to rain or excessive moisture
- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Do not insert foreign objects into the TV
- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base
- The TV may fall off or tip over.

Use only the dedicated pedestals / mounting equipment
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 7) / wall-hanging brackets (p. 6).

Do not allow children to handle SD Card
- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.

Radio waves
- Do not use the TV in any medical institutions or locations with medical equipment. Radio waves from the TV may interfere with the medical equipment and cause accidents due to the malfunction.
- Do not use the TV near any automatic control equipment such as automatic doors or fire alarms. Radio waves from the TV may interfere with the automatic control equipment and cause accidents due to the malfunction.
- Keep the distance at least 22 cm from the built-in wireless LAN part when you have a cardiac pacemaker. Radio waves from the part may interfere with the operation of the pacemaker.
- Do not disassemble or alter the built-in wireless LAN in any way.

Caution

When cleaning the TV, remove the mains plug
- Cleaning an energized TV may cause electrical shock.

### When the TV is not going to be used for a long period of time, remove the mains plug
- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position
- Transporting the TV with its display panel facing upward or downward may cause damage to the internal circuitry.

Allow sufficient space around the TV for radiated heat

Minimum distance

10 / 10 / 10 / 7 (cm)
- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- In case of using Wall-hanging bracket, follow the manual of it.

Do not block the rear air vents
- Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.
Do not expose your ears to excessive volume from the headphones
- Irreversible damage can be caused.

Do not apply strong force or impact to the display panel
- This may cause damage resulting in injury.

The TV is heavy. Handle the TV by 2 or more people. Support as shown to avoid injury by the TV tipping or falling.

Built-in wireless LAN
- To use the built-in wireless LAN, an access point needs to be obtained.
- Do not use the built-in wireless LAN to connect to any wireless network (SSID*) for which you do not have usage rights. Such networks may be listed as a result of searches. However, using them may be regarded as illegal access.
  *SSID is a name for identifying a particular wireless network for transmission.
- Do not subject the built-in wireless LAN to high temperatures, direct sunlight or moisture.
- Data transmitted and received over radio waves may be intercepted and monitored.
- The built-in wireless LAN uses 2.4 GHz and 5 GHz frequency bands. To avoid malfunctions or slow response caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves, mobile phones and the devices that use 2.4 GHz and 5 GHz signals when using the built-in wireless LAN.
- When noises occur due to the static electricity, etc., the TV might stop operating for the protection of the devices. In this case, turn the TV off with Mains power On / Off switch, then turn it on again.
- Additional information for built-in wireless LAN and access point may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

Bluetooth® wireless technology
- The TV uses the 2.4 GHz radio frequency ISM band (Bluetooth®). To avoid malfunctions or slow response caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, other Bluetooth devices, microwaves, mobile phones and the devices that use 2.4 GHz signal.

Screw for fixing the TV onto the wall-hanging bracket (not supplied with the TV)

(View from the side)
Holes for wall-hanging bracket installation

> **Warning**

● Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit's performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
● Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from falling off.
● Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
● Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
● To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

3D Eyewear

- TY-ER3D4ME
- TY-ER3D4SE

- If you need 3D Eyewears, please purchase this optional accessory.
- Use Panasonic 3D Eyewear supporting Bluetooth wireless technology.

Communication Camera

- TY-CC20W

- This camera can be used on VIERA Connect (p. 19, 82).
- Depending on the area, this optional accessory may not be available.
 For details, consult your local Panasonic dealer.

Installing / removing remote's batteries

1

Pull open

Hook

Caution

- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break up batteries.
  Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Do not disassemble or modify the remote control.

2

Close

Note the correct polarity (+ or -)

Attaching / removing the pedestal

Warning

Do not disassemble or modify the pedestal.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution

Do not use any pedestal other than the one provided with this TV.
- Otherwise the TV may fall over and become damaged, and personal injury may result.
Do not use the pedestal if it becomes warped or physically damaged.
- If you use the pedestal while it is physically damaged, personal injury may result. Contact your local Panasonic dealer immediately.
During set-up, make sure that all screws are securely tightened.
- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
Ensure that the TV does not fall over.
- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.
Two or more people are required to install and remove the TV.
- If two or more people are not present, the TV may be dropped, and personal injury may result.
When removing the pedestal from the TV, do not remove the pedestal by the methods other than the specified procedure. ➡(p. 9)
- Otherwise the TV and / or pedestal may fall over and become damaged, and personal injury may result.

■ Assembling the pedestal

1 **Insert the tabs of the neck Ⓓ into the base Ⓕ firmly**

Tabs (bottom)

2 **Turn the base Ⓕ over and fix the neck Ⓓ securely with assembly screws Ⓑ**
● Do not hold the neck when turning over the base.

Screw hole

Back of the base
3 **Attach the bracket Ⓒ to the tabs of the neck Ⓓ and fix with assembly screws Ⓑ**

Tabs (top)

4 **Attach the cover Ⓔ and fix securely with assembly screw Ⓐ**
■ Securing the TV
Use the assembly screws Ⓐ to fasten securely.
● Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
● Carry out the work on a horizontal and level surface.

Arrow mark

Hole for pedestal installation
Removing the pedestal from the TV
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.

1 Remove the assembly screws Ⓐ from the TV.
2 Pull out the pedestal from the TV.
3 Remove the assembly screw Ⓐ from the cover.
4 Remove the assembly screws Ⓑ from the bracket.
5 Remove the assembly screws Ⓑ from the back of the base and pull out the neck.

Adjusting the panel to your desired angle
● Do not place any objects within the full rotation range.

Identifying Controls

Remote Control

Quick Start Guide

Identifying Controls
1 **Standby On / Off switch**
● Switches TV on or off standby.

2 **3D button** ➡ (p. 33)
● Switches the viewing mode between 2D and 3D.

3 **[Main Menu]** ➡ (p. 37)
● Press to access Picture, Sound, Network, Timer and Setup Menus.

4 **Information** ➡ (p. 21)
● Displays channel and programme information.

5 **VIERA TOOLS** ➡ (p. 36)
● Displays some special feature icons and accesses easily.

6 **INTERNET ([VIERA Connect])** ➡ (p. 19, 82)
● Displays VIERA Connect home screen.

7 **OK**
● Confirms selections and choices.
● Press after selecting channel positions to quickly change channel.
● Displays the Channel List.

8 **[Option Menu]** ➡ (p. 22)
● Easy optional setting for viewing, sound, etc.

9 **Coloured buttons**
(red-green-yellow-blue)
● Used for the selection, navigation and operation of various functions.

10 **Sound Mute**
● Switches sound mute on or off.

11 **Teletext** ➡ (p. 27)
● Switches to teletext mode.

12 **Volume Up / Down**

13 **Numeric buttons**
● Changes channel and teletext pages.
● Sets characters.
● When in Standby mode, switches TV on (Press for about 1 second).

14 **Surround** ➡ (p. 41)
● Switches surround sound setting.

15 **Light**
● Lights the buttons for about 5 seconds (except the buttons "25").

16 **Input mode selection**
● TV - switches DVB-S / DVB-C / DVB-T / Analogue mode. ➡ (p. 20)
● AV - switches to AV input mode from Input Selection list. ➡ (p. 29)

17 **Exit**
● Returns to the normal viewing screen.

18 **TV Guide** ➡ (p. 24)

19 **Cursor buttons**
● Makes selections and adjustments.

20 **Return**
● Returns to the previous menu / page.

21 **Aspect** ➡ (p. 23)
● Changes aspect ratio.

22 **Subtitles** ➡ (p. 21)
● Displays subtitles.

23 **Channel Up / Down**

24 **Last view** ➡ (p. 23)
● Switches to previously viewed channel or input mode.

25 **Operations for contents, connected equipment, etc.** ➡ (p. 30, 69, 71, 88, 98)

Indicator / Control panel

1 Function select
- [Volume] / [Contrast] / [Brightness] / [Colour] / [Sharpness] / [Tint] (NTSC signal) / [Bass]* / [Treble]* / [Balance] / [Auto Setup] (p. 48 - 51)
  *[Music] or [Speech] mode in the Sound Menu

2 Channel Up / Down, Value change (when using the F button), Switching the TV on (press either button for about 1 second when in Standby mode)

3 Changes the input mode

4 Mains power On / Off switch
- Use to switch the mains power.
  If you turned the TV off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV on with Mains power On / Off switch.

When pressing the control panel button (1 - 4), the control panel guide appears on the right side of the screen for 3 seconds to highlight the pressed button.

5 Remote control signal receiver
- Do not place any objects between the TV remote control signal receiver and remote control.

6 C.A.T.S. (Contrast Automatic Tracking System) sensor
- Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is set to [On].
  ➡ **(p. 39)**
Rear side of the TV

7 Power and Timer LED

Note

- Connect to the TV's AV1 for a DVD Recorder / VCR supporting Q-Link (p. 94).
- Q-Link and VIERA Link connection ➡ **(p. 92, 93)**
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor.
  Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
- When using a SCART or HDMI cable, use the fully wired one.
- Check the type of terminals and cable plugs are correct when connecting.

Network

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.
● If you do not have any broadband network services, please consult your retailer for assistance.
● Prepare the internet environment for wired connection or wireless connection.
● Setup of the network connection will start after the tuning (when first using the TV). ➡ **(p. 16 - 18)**

■ Wired connection

LAN cable (Unshielded)
● Use the Unshielded Twist Pair (UTP) LAN cable.

TV

- To initialise all settings ➡ **[Shipping Condition] (p. 62)**

Using "VIERA Connect"

VIERA Connect is a gateway to the internet services unique to Panasonic.
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, communication tools, etc. from VIERA Connect home screen.
● This TV does not support full web browser function and some features of the websites may not be available.
1 Turn power on

● Press for about 1 second.
● Mains power On / Off switch should be on. (p. 11)
● Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

VIERA Connect Enjoy selected internet content with VIERA Connect.
Simply press the OK / INTERNET button
2 Access VIERA Connect

While the banner is displayed

INTERNET   or   (OK)

● Depending on the usage conditions, it may take a while to read all the data.
● Messages might be displayed before VIERA Connect home screen. Please read these instructions carefully and follow the on-screen instructions.

Example: VIERA Connect home screen
● To go to the next level, select [MORE].
● To back to the previous level, select [BACK].
● To return to VIERA Connect home screen

INTERNET

■ **To exit from VIERA Connect**

EXIT

● To set the VIERA Connect introduction banner display off
  ➡ **[VIERA Connect Banner] (p. 45)**

● Setup menu (Items in [Setup] may change without notice.)

Customize HomeScreen	Changes the position of each services on VIERA Connect home screen
My Account	Confirms or removes the account information of the TV you entered on VIERA Connect
Lock	Sets to restrict access to some services
Restrictions	Sets to restrict reveal of the restricted services
Beep	Sets beep sound On or Off when operating VIERA Connect
Notices	Displays the information of VIERA Connect

● Video communication (for example Skype™) requires an exclusive Communication Camera TY-CC20W.
  ➡ **"Optional accessories" (p. 7)**
  For details, read the manual of the Communication Camera.
● You can connect a keyboard and a gamepad for character input and playing games in VIERA Connect. You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features.
  For more information
  ➡ **"USB connection" (p. 109), "Bluetooth Setup" (p. 109), "Operations from Keyboard / Gamepad" (p. 110)**

Note

● This function is not available in Analogue mode.
● Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
● No other channel can be selected while the recording of Timer Programming is in progress.
● When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.
 If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 94, 95) and [Link Settings] (p. 43) are completed, no setting of the recorder is required. Also read the manual of the recorder.
● When recording programmes to the USB HDD, be sure to format the USB HDD and enable it to record in [Recording Setup] (p. 66).
● For more information of the USB HDD Recording ➡ **(p. 66, 107)**

Viewing Teletext

Teletext services are the text information provided by the broadcasters.
The features may vary depending on the broadcasters.

What is FLOF (FASTEXT) mode?
In FLOF mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriate coloured button. This facility enables fast access to information on the subjects shown.

What is TOP mode? (in case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.
● Fast overview of the teletext information available
● Easy to use step-by-step selection of the topical subject
● Page status information at the bottom of the screen

● Available page up / down	● To select among subject blocks	● To select next subject within the subject block (After the last subject, it moves to the next subject block.)
☐ (red) ☐ (green)	☐ (blue)	☐ (yellow)

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV's memory. ➡ **"Store frequently viewed pages" (p. 28)**

How to change the code
Each type of the Panasonic equipment has its own remote control code.
Change the code according to the equipment you want to operate.
Press and hold Standby On / Off switch during the following operations

Enter the appropriate code, see table below
1 2 3 4 5 6 7 8 9 0 ➡ Press ■

Type of the equipment, features	Code
DVD Recorder, DVD Player, Blu-ray Disc Player	70
Player theatre, Blu-ray Disc theatre	71
VCR	72
Using in USB HDD Recording (p. 68), Media Player (p. 71), DLNA features (p. 88) or Direct TV Recording (p. 94, 96) Equipment using in VIERA Link (p. 97)	73 (default)

Note

● Confirm if the remote control works correctly after changing the code.
● The codes may be reset to default values if batteries are replaced.
● Some operations may not be possible on some equipment models.

Viewing 3D images

You can enjoy viewing 3D images with contents or programmes corresponding to the 3D effect by wearing the 3D Eyewear. ➡ **"Optional accessories" (p. 7)**
This TV supports [Frame Sequential]*1, [Side by Side]*2 and [Top and Bottom]*3 3D formats.
*1: The 3D format that the images for the left and right eyes are recorded with the high definition quality and alternately played back.
*2, *3: Other available 3D formats
● How to view the 3D images ➡ **(p. 33)**

┌─────────────┐
│ **Caution** │
└─────────────┘
To use 3D Eyewear safely and comfortably, please read these instructions fully.

Viewing 3D Content
● Do not use the 3D Eyewear if you have a history of over-sensitivity to light, heart problems, or have any other existing medical conditions.
● Please stop using the 3D Eyewear immediately, if you feel tired, are not feeling well or experience any other uncomfortable sensation. When you set the effect by using [3D Adjustment], take into account that the vision of 3D images varies among different individuals.
● Take an appropriate break after viewing a 3D movie.
● Take a break of between 30 - 60 minutes after viewing 3D content on interactive devices such as 3D games or computers.
● Be careful not to strike the TV screen or other people unintentionally. When using the 3D Eyewear the distance between the user and screen can be misjudged.
● The 3D Eyewear must only be worn when viewing 3D content.
● Use the 3D Eyewear where there is no interference from other devices with Bluetooth signal.
● If you suffer from any eyesight problems (short / far-sighted, astigmatism, eyesight differences in left and right), please ensure to correct your vision before using the 3D Eyewear.
● Stop using the 3D Eyewear if you can clearly see double images when viewing 3D content.
● Do not use the 3D Eyewear at a distance less than the recommended distance.
  The recommended viewing distance is at least 3 times of the image height.
  TX-P42GT50E: 1.6 m or more
  TX-P50GT50E: 1.9 m or more
  When the top and bottom area of the screen is blackened, such as movies, view the screen at a distance at least 3 times of the height of the actual image. (That makes the distance closer than above recommended figure.)

3D Eyewear Use
● Pay special attention when children are using the 3D Eyewear.
  3D Eyewear should not be used by children younger than about 5 - 6 years old, as a guideline. All children must be fully supervised by parents or guardians who must ensure their safety and health throughout the using 3D Eyewear.
● Before using the 3D Eyewear, ensure no breakable objects surrounding the user to avoid any accidental damage or injury.
● Remove the 3D Eyewear before moving around to avoid falling or accidental injury.
● Use the 3D Eyewear only for the intended purpose and nothing else.
● Do not use 3D Eyewear in the condition of high temperature.
● Do not use if the 3D Eyewear is physically damaged.
● Do not use devices (such as mobile phones or personal transceivers) that emit strong electromagnetic waves near the 3D Eyewear as this may cause the 3D Eyewear to malfunction.
● Stop using the 3D Eyewear immediately if a malfunction or fault occurs.
● Stop using the 3D Eyewear immediately if you experience any redness, pain, or skin irritation around the nose or temples.
● In rare cases, the materials used in the 3D Eyewear may cause an allergic reaction.

3D Eyewear (optional)

FULL HD **RF**
3D

● Use the Panasonic 3D Eyewear that has this logo and supports Bluetooth® wireless technology.

"Full HD 3D Glasses™" logo indicates products that are compatible with the active shutter 3D glasses technology standards licensed by the Full HD 3D Glasses Initiative. The RF mark on the logo means the wireless system (Bluetooth® wireless technology), and you can use the 3D Eyewear and the TV that have the same mark together.

> **Note**
> ● Use the 3D Eyewear within approximately 3.2 m from the TV. You cannot view the 3D images with the 3D Eyewear too far from the TV, because of the difficulty of receiving radio waves from the TV.
> ● The range may be shortened depending on the obstacles between the TV and the 3D Eyewear, or the surrounding environment.
> ● There are differences in the viewing range of the 3D Eyewear among individuals.
> ● The 3D Eyewear may not operate correctly at the outside of the viewing range.

Viewing 3D images

To view the 3D images

You can enjoy the 3D images in a variety of ways.
(Frame Sequential, Side by Side and Top and Bottom are the supported 3D format.)

■ Playing back 3D-compatible Blu-ray disc (Frame Sequential format)
● Connect the 3D-compatible player via a fully wired HDMI compliant cable.
● If input mode is not switched automatically, select the input mode connected to the player. (p. 29)
● If you use the non 3D-compatible player, the images will be displayed on 2D mode.

■ 3D-supported broadcast
● Please consult the suppliers of contents or programmes for availability of this service.

■ 3D photos and 3D videos taken by 3D-compatible Panasonic products
● Available in Media Player (p. 70) and Network services (p. 88)

■ 2D images converted to 3D
● Set to [2D→3D] mode in [3D Mode Selection]. (p. 34)

Preparations
Perform the First Registration when the 3D Eyewear is used for the first time. For details, read the manual of the 3D Eyewear.

1 Turn the 3D Eyewear on and put it on
● Connection status and battery status are displayed on the bottom right of the screen.

2 View the 3D images
● Safety precautions will be displayed when you first watch the 3D image. Select [Yes] or [No] to continue to view 3D images.
  If you select [Yes], this message will be displayed again in the same condition after Mains power On / Off switch is next turned on. Select [No] if you do not want to display this message again.
● Turn off the 3D Eyewear after using it.

> **Note**
> ● 3D Eyewear is not included. Please purchase as necessary. (p. 7)
> ● For more detail about using and wearing the 3D Eyewear, read the manual of the 3D Eyewear.
> ● The 3D image or 3D effect may not be available in the following conditions:
>   • VIERA Connect home screen (p. 19) is displayed.
>   • [Ext Rec.] or [LT1] / [LT2] of Timer Programming (p. 56) is in progress.
>   • [LT1] / [LT2] of One Touch Recording (p. 68) is in progress.
>   • Direct TV Recording (p. 94, 96) is in progress.
>   As for the contents of the Frame Sequential format and Side by Side (Full), no images will be displayed in these conditions.
> ● If light appears to flicker under fluorescents or dimmers when using the 3D Eyewear, change the setting of [3D Refresh Rate]. (p. 39)
> ● 3D content will not be correctly visible if the 3D Eyewear is worn upside down or back-to-front.
> ● Do not wear the 3D Eyewear when watching anything other than 3D images. Liquid crystal displays (such as computer screens, digital clocks or calculators, etc.) may be difficult to see while wearing the 3D Eyewear.
> ● Do not use the 3D Eyewear as sunglasses.
> ● 3D effects may be perceived differently depending on the person.

Changing 2D - 3D mode

You can easily change the viewing mode between 2D and 3D using the 3D button.

Select the mode

3D Mode Selection	
2D→3D	
3D	
2D	
① select
② set

● Items of [3D Mode Selection] vary depending on the condition.

[3D] / [2D] / [2D→3D]:
Displays the appropriate image that you desire without selecting 3D format.
● This mode may not work properly depending on the source image format. In this case, select the appropriate 3D format manually.

■ To change 3D format manually

When the image is not changed properly using [3D], [2D] or [2D→3D] mode, use this manual setting.

During the above operation

⬜ (red)

➡ Select the mode

Menu	Item	Adjustments / Configurations (alternatives)
Picture	**Viewing Mode**	Selects your favourite picture mode for each input **[Dynamic] / [Normal] / [Cinema] / [THX Cinema] / [THX Bright Room] /** **[Game] / [Professional1] / [Professional2]** **[Dynamic]:** Improves contrast and sharpness for viewing in a bright room. **[Normal]:** Normal use for viewing in a normal lighting condition. **[Cinema]:** Improves the performance of contrast, black and colour reproduction for watching movies in a darkened room. **[THX Cinema]*:** Reproduces the original image quality precisely in a darkened room. ● [THX3D Cinema] is displayed instead of [THX Cinema] in 3D mode. **[THX Bright Room]***: Reproduces the original image quality precisely in a bright room. ● Not valid on 3D mode **[Game]:** Provides suitable images for fast response signal when playing games. ● Not valid on TV mode ● To display a continuous record of time spent using Game mode ➡ [Playing Time Display] (p. 45) **[Professional1 / 2]:** Allows you to set the professional picture settings in [Advanced Settings], [Colour Gamut], [Lock Settings] and [Copy Adjustment]. ➡ (p. 64) ● This mode is available only when [Advance(isfccc)] in the Setup Menu is set to [On]. ● If the certified professional dealer sets these modes, [Professional1] and [Professional2] may be displayed as [isf Day] and [isf Night]. In each Viewing Mode, [Contrast], [Brightness], [Colour], [Sharpness], [Tint], [Colour Balance], [Vivid Colour], [Colour Remaster], [Eco Mode], [P-NR] and [3D-COMB] can be adjusted and stored for each input. Additionally, you can adjust and setup the detailed settings when [Advance(isfccc)] in the Setup Menu is set to [On]. ➡ (p. 46) ● You can set [Viewing Mode] in 2D and 3D mode for each. *THX modes are used to mirror the picture settings used by professional filmmakers, faithfully reproducing the image quality of THX Certified movies. THX Certified movies have the THX logo on the disc. THX modes are not available in the mode of Media Player (photo /music) and network service operations.
	Contrast, Brightness, Colour, Sharpness	Adjusts the levels of these options according to your personal preference
	Tint	Adjusts the picture hue to suit your taste ● For NTSC signal reception
	Colour Balance	Sets the overall colour tone of the picture **[Cool] / [Normal] / [Warm]** ● Not valid when [Viewing Mode] is set to THX modes, [Professional1] or [Professional2]
	Vivid Colour	Automatically adjusts colours to vivid ones **[Off] / [On]** ● Not valid when [Viewing Mode] is set to [Professional1] or [Professional2]
	Colour Remaster	Displays the vivid images with the expanded colour gamut **[Off] / [On] / [Auto]** ● For HDMI input or video contents of Media Player (when [Viewing Mode] is set to [Dynamic], [Normal] or [Cinema]) ● Set to [Auto] to use this function effectively.

Menu	Item		Adjustments / Configurations (alternatives)
Picture	**Eco Mode**		Automatic Brightness Control function Adjusts picture settings automatically depending on ambient lighting conditions **[Off] / [On]**
	P-NR		Picture Noise Reduction Reduces unwanted picture noise and flicker noise in the contoured parts of a picture **[Off] / [Min] / [Mid] / [Max] / [Auto]** ●Not valid when [Viewing Mode] is set to [Game] or [1080p Pure Direct] is set to [On]
	3D-COMB		Makes still or slow moving pictures more vivid **[Off] / [On]** ●Occasionally, while viewing still or slow moving pictures, colour patterning may be seen. Set to [On] to display sharper and more accurate colours. ●For PAL / NTSC signal reception in TV mode or from composite (except 3D mode)
	3D Settings		Adjusts and sets to view 3D images (p. 35)
	Screen Display		Turns the screen off when you select [Off] **[Off] / [On]** ●The sound is active even if the screen turns off. ●Press any buttons (except Standby) to turn the screen on. ●This function is effective in reducing power consumption when listening to the sound without watching the TV screen.
	Advanced Settings	**1080p Pure Direct**	Reproduces the original image quality in detail for 1080p (HDMI) input signal **[Off] / [On]** ●Not valid on 3D mode
		Intelligent Frame Creation	Automatically compensates the picture frame rate and removes juddering movements to make the images smooth **[Off] / [Min] / [Mid] / [Max]** ●Depending on the contents, images may be noisy. To prevent the noise, change the setting. ●Not valid when [Viewing Mode] is set to [Game]
		24p Smooth Film	Automatically compensates the picture frame rate to make the 24p source movie images smooth **[Off] / [Min] / [Mid] / [Max]** ●This is available only for 24p signal input and displayed instead of [Intelligent Frame Creation]. ●Not valid when [Viewing Mode] is set to [Game]
		Film Cadence Detection	Improves vertical resolution for movie images **[Off] / [On]** ●This function is available for the interlaced signal (except in VIERA Connect or when [Viewing Mode] is set to [Game]).
		3D Refresh Rate	Reduces juddering and flicker noises of the 3D images when using the 3D Eyewear **[Auto] / [100Hz] / [120Hz]** **[100Hz]:** If light appears to flicker under fluorescents (or dimmers) of 50 Hz. **[120Hz]:** If light appears to flicker under fluorescents (or dimmers) of 60 Hz.
		Side Panel	Adjusts the brightness of the side panel **[Off] / [Low] / [Mid] / [High]** ●The recommended setting is [High] to prevent panel "image retention".

Menu	Item		Adjustments / Configurations (alternatives)
Picture	**Advanced Settings**	**16:9 Overscan**	Selects the screen area displaying the image **[Off] / [On]** **[On]:** Enlarges the image to hide the edge of the image. **[Off]:** Displays the image in the original size. ● Set to [On] if noise is generated on the edge of the screen. ● This function is available when aspect is set to [Auto] (16:9 signal only) or [16:9]. ● This function can be memorised separately for SD (Standard definition) and HD (High definition) signals. ● Not valid on VIERA Connect
		AV Colour System	Selects optional colour system based on video signals in AV mode **[Auto] / [PAL] / [SECAM] / [M.NTSC] / [NTSC]**
		DVI Input Setting	Changes the black level of the image for HDMI input mode with DVI input signal manually **[Normal] / [Full]** ● When the DVI input signal from the external equipment (especially from PC) is displayed, the black level may not be suitable. In this case, select [Full]. ● The black level for HDMI input signal will be adjusted automatically. ● For HDMI input mode with DVI input signal
		Pixel Orbiter	Selects the mode for wobbling of the image to prevent panel "image retention" **[Auto] / [On]** **[Auto]:** Automatically works only for the appropriate images and you rarely recognise the wobbling.
		Scrolling Bar	Displays scrolling bar pattern to assist elimination of panel "image retention" ● Press the OK button to start scrolling and press any buttons (except Standby) to exit this mode. ● For positive effect to eliminate "image retention", it may be necessary to display for a long time.
	Reset to Defaults		Press the OK button to reset the current Picture Viewing Mode of the selected input to the default settings
Sound	**Mode**		Selects your favourite sound mode **[Music] / [Speech] / [User]** ● The selected mode affects all input signals. **[Music]:** Improves sound quality for watching music videos, etc. **[Speech]:** Improves sound quality for watching news, drama, etc. ● In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode. **[User]:** Adjusts the sounds manually by using the equaliser to suit your favourite sound quality. ● For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select [Equaliser] and adjust the frequency. ➡ [Equaliser] (p. 41)
	Bass		Adjusts level to enhance or minimise lower, deeper sound output
	Treble		Adjusts level to enhance or minimise sharper, higher sound output

Menu	Item	Adjustments / Configurations (alternatives)
Sound	**Equaliser**	Adjusts the frequency level to suit your favourite sound quality ● This function is available when [Mode] is set to [User]. ● Select the frequency and change the frequency level by using the cursor button. ● To enhance the bass sound, raise the level of the lower frequency. To enhance the treble sound, raise the level of the higher frequency. ● To reset the levels of each frequency to the default settings, select [Reset to Defaults] by using the cursor button, and then press the OK button.
	Balance	Adjusts volume level of right and left speakers
	Headphone Volume	Adjusts the volume of the headphones
	Surround	Surround sound settings **[Off] / [V-Audio] / [V-Audio Surround]** **[V-Audio]:** Provides a dynamic enhancer of width to simulate improved spatial effects. **[V-Audio Surround]:** Provides a dynamic enhancer of width and depth to simulate improved spatial effects. ● Switching is also possible by the SURROUND button on the remote control (p. 10).
	Auto Gain Control	Automatically regulates large sound level differences between channels and inputs **[Off] / [On]**
	Volume Correction	Adjusts the volume of individual channel or input mode
	Speaker Distance to Wall	Compensates for the low frequency sound due to the distance between the speakers and the wall **[Over 30cm] / [Up to 30cm]** ● If the back space between the TV and wall is over 30 cm, [Over 30cm] is recommended. ● If the back space between the TV and wall is within 30 cm, [Up to 30cm] is recommended.
	MPX	Selects multiplex sound mode (if available) **[Stereo]:** Use this normally. **[Mono]:** When stereo signal cannot be received. **[M1] / [M2]:** Available while mono signal is transmitted. ● For Analogue mode
	Audio Preference	Selects the initial setting for audio tracks **[Auto] / [Multichannel] / [Stereo] / [MPEG]** ● Selectable options vary depending on the country you select. **[Auto]:** Automatically selects the audio tracks if programme has more than two tracks. The priority is given in the following order - Dolby Digital Plus, HE-AAC, Dolby Digital, MPEG. **[Multichannel]:** The priority is given to multi-channel audio track. **[Stereo]:** The priority is given to stereo (2ch) audio track. **[MPEG]:** The priority is given to MPEG. ● Dolby Digital Plus and Dolby Digital are the methods of coding digital signals developed by Dolby Laboratories. Apart from stereo (2ch) audio, these signals can be multi-channel audio. ● HE-AAC is a perceptual coding method used to compress digital audio for efficient storage and transmission. ● MPEG is an audio compression method that compresses audio to the smaller size without any considerable loss of audio quality. ● Dolby Digital Plus and HE-AAC are the technologies for HD (High definition) programmes. ● For DVB mode

Menu	Item	Adjustments / Configurations (alternatives)
Sound	**Audio Type**	Narration settings for visually impaired users (only available in some countries) **[Standard] / [Visual Impaired]** • Set to [Visual Impaired] to activate the narration sound track when available on the broadcast. • For DVB mode
	SPDIF Selection	SPDIF: A standard audio transfer file format Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals **[Auto] / [PCM]** **[Auto]:** Dolby Digital Plus, Dolby Digital and HE-AAC multi-channel are output as Dolby Digital Bitstream. MPEG is output as PCM. **[PCM]:** Digital output signal is fixed to PCM. • For DVB mode or video contents of Media Player / Network services (p. 79, 91) • ARC (Audio Return Channel): A function of digital audio output using HDMI cable
	HDMI1 / 2 / 3 / 4 Input	Selects to fit the input signal **[Digital] / [Analogue]** (p. 108) **[Digital]:** When sound is carried via the HDMI cable connection **[Analogue]:** When sound is not carried via the HDMI-DVI adaptor cable connection • For HDMI input
	SPDIF Delay	Adjusts the delay time of the sound output from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals if the sound does not synchronise the image • For DVB mode
	Reset to Defaults	Press the OK button to reset the current Sound Mode, [Balance], [Headphone Volume] and [Surround] to the default settings
Network	**Connection Test, Network Connection, Wireless Network Settings, IP/DNS Settings**	Sets the network setting to use in your network environment (p. 85, 86)
	Network Link Settings	Sets to control the TV with the devices connected to the network (p. 84)
	Software Update	Checks for available software updates from the Panasonic website
	New Software Message	Selects whether to give a notification message when new software is found via network **[Off] / [On]**
	Network Status	Displays the network status (MAC Address, current network settings, etc.)
Timer	**Timer Programming**	Sets a timer to record or remind forthcoming programmes (p. 56) • For DVB mode
	Off Timer	Sets the duration of time until the TV automatically goes into Standby mode **[Off] / [15] / [30] / [45] / [60] / [75] / [90] (minutes)** (p. 22)
	Auto Standby	Sets the duration of time that the TV will remain on when no operation is performed **[Off] / [2] / [4] (hours)** • Starting Timer Programming automatically does not affect this function. • Automatic input switching with the connected equipment affects this function and time-count will be reset. • The notification message will appear 3 minutes before going into Standby mode.

Menu	Item		Adjustments / Configurations (alternatives)
Setup	**Eco Navigation**		Automatically sets the TV to the most suitable energy-saving mode ● If you press the OK button, the following items are set as below: [Eco Mode], [VIERA Link], [Power off Link], [Standby Power Save], [Power Save] ⮕ [On] [Intelligent Auto Standby] ⮕ [On (No reminder)] [Auto Standby] ⮕ [2 hours]
	Recording Setup		Settings for the recording feature of the USB HDD (p. 66)
	Bluetooth Setup		Settings for the specific devices supporting Bluetooth wireless technology (p. 109)
	Link Settings	**VIERA Link**	Sets to use VIERA Link functions **[Off] / [On]** (p. 95)
		HDMI Content Type	Automatically adjusts the picture settings according to the received HDMI content via HDMI cable **[Off] / [Auto]** ● This function is available if the connected equipment supports HDMI Content Type. ● The content type information will be displayed for several seconds when this function works.
		AV1 out	Chooses the signal to be transmitted from the TV to Q-Link **[TV] / [AV2] / [Monitor]** **[Monitor]:** Image displayed on screen ● Component and HDMI signals cannot be output.
		Power on Link	Sets to use Power on Link function **[Off] / [On]** (p. 94, 95)
		Power off Link	Sets to use Power off Link function **[Off] / [On]** (p. 94, 95)
		Standby Power Save	Controls the connected equipment to reduce power consumption in Standby **[Off] / [On]** (p. 96) ● This function is available when [VIERA Link] is set to [On] and [Power off Link] is set to [On].
		Intelligent Auto Standby	Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption **[Off] / [On (With reminder)] / [On (No reminder)]** (p. 96) ● This function is available when [VIERA Link] is set to [On].
		Download	Downloads channel, language and country / region settings to Q-Link or VIERA Link compatible equipment connected to the TV ● DVB-S and DVB-C channel settings cannot be downloaded.
	Child Lock		Applies access control for channels or inputs to prevent unwanted access (p. 59)
	Tuning Menu*	**Favourites Edit**	Creates a list of favourite channels (p. 52) ● Not valid on Analogue mode
		Channel List	Skips the unwanted channels or edits channels (p. 53)
		Auto Setup	Automatically searches for the receivable channels (p. 48 - 51)

Menu		Item	Adjustments / Configurations (alternatives)
Setup	**Tuning Menu***	**Manual Tuning**	Searches for the channels manually (p. 54)
		Update Channel List	Updates the channel list while keeping your settings (p. 55) ● For DVB mode
		Favourite Network	Selects your favourite network for each broadcasters (only available in some countries) ● For DVB-C or DVB-T mode
		New Channel Message	Selects whether to give a notification message when a new channel is found **[Off] / [On]** (p. 55) ● For DVB mode
		Service Replacement	Set to [On] to enable a message to switch to the available service (only available in some countries) **[Off] / [On]** ● For DVB-C mode
		Signal Condition	Checks the signal condition (p. 55) ● Not valid on Analogue mode
		Antenna System	Sets the antenna system to use plural LNBs for receiving several satellites **[One LNB] / [MiniDiSEqC] / [DiSEqC 1.0] / [Single Cable]** (p. 48) ● This TV supports DiSEqC Version 1.0. ● For DVB-S mode
		LNB Configuration	Selects the satellite for each LNB (p. 48) ● For DVB-S mode
		Attenuator	Automatically reduces the DVB-C signal to avoid the interference **[Off] / [On]** ● If the DVB-C signal is too strong, the interference may occur. In this case set to [On] to reduce the signal automatically.
		Add TV Signal	Adds the TV mode ● This function is available if you skip any modes to tune in [Auto Setup] for first using the TV. ● To operate, refer to the "Auto Setup" operations for first using the TV (p. 15).
	Language	**OSD Language**	Changes language for on-screen displays
		Preferred Audio 1 / 2	Selects the first and second preferred language for DVB multi audio (depending on the broadcaster)
		Preferred Subtitles 1 / 2	Selects the first and second preferred language for DVB subtitles (depending on the broadcaster) ● To display subtitles ➡ (p. 21)
		Preferred Teletext	Selects the preferred language for DVB teletext service (depending on the broadcaster)

Menu		Item	Adjustments / Configurations (alternatives)
Setup	**Display Settings**	**Preferred Subtitle Type**	Selects the preferred subtitle type **[Standard] / [Hard of Hearing]** ● [Hard of Hearing] provides aids in understanding and enjoyment with DVB subtitles (depending on the broadcaster). ● [Preferred Subtitles 1 / 2] in [Language] are given priority.
		Teletext	Teletext display mode **[TOP (FLOF)] / [List]** (p. 27)
		Teletext Character Set	Selects teletext language font **[West] / [East1] / [East2]** **[West]:** English, French, German, Greek, Italian, Spanish, Swedish, Turkish, etc. **[East1]:** Czech, English, Estonian, Lettish, Rumanian, Russian, Ukrainian, etc. **[East2]:** Czech, Hungarian, Lettish, Polish, Rumanian, etc.

		Default Guide	Selects the default TV Guide type when the GUIDE button is pressed (only available in some countries) **[Channel List] / [TV Guide]**
			[TV Guide]:
			  Electronic Programme Guide (EPG) is available.
			    ● To use EPG ➡ (p. 24)
			[Channel List]:
			  The channel list will appear instead of EPG.

		Input Labels	Accesses the input labels list to select the label of each input mode or set to skip unconnected one for easier identification and selection in [TV Selection] (p. 20), [Input Selection] (p. 29) or banner ● To name each input mode freely, select [User input] and set characters (maximum 10 characters). ● To skip the input mode, select [Skip].
		Banner Display Timeout	Sets how long the Information banner stays on screen **[0 (No display)] / [1] / [2] / [3] / [4] / [5] / [6] / [7] / [8] / [9] / [10] (seconds)**
		VIERA Connect Banner	Sets the VIERA Connect introduction banner display **[Off] / [On]** (p. 19, 20)
		Playing Time Display	Set to [On] to display a continuous record of time spent using Game mode in the top right of the screen every 30 minutes **[Off] / [On]** ● This function is available when [Viewing Mode] is set to [Game]. ➡ (p. 38)
		Data Service Application	Sets to use Hybrid Broadcast Broadband TV application (depending on the selected country and broadcaster) **[Off] / [Auto Start Off] / [Auto Start On]** (p. 60) ● For DVB mode
		Radio Mode	Sets the timer for turning off the screen automatically when a radio channel is selected **[Off] / [5] / [10] / [15] / [20] (seconds)** ● The sound is active even if the screen turns off. This function is effective in reducing power consumption when listening to a radio channel. ● Press any buttons except Standby, Volume Up / Down and MUTE buttons to turn the screen on. ● Not valid on Analogue mode
		Channel Transition Effect	Enables the transition effect when changing channels **[Off] / [On]**

Menu	Item			Adjustments / Configurations (alternatives)
Setup	**Common Interface**			Sets to watch encrypted channels, etc. (p. 61)
	DivX® VOD			Displays DivX VOD registration code (p. 106)
	Advance(isfccc)			Enables the advanced picture settings **[Off] / [On]** ● Set to [On] to display the advanced items in the Picture Menu - [Advanced Settings], [Lock Settings] and [Copy Adjustment]. [Copy Adjustment] will be displayed when [Viewing Mode] is set to [Professional1] or [Professional2]. (p. 64) ● [isfccc] is the picture setting for the certified professional dealer. For details, consult your local dealer.
	System Menu	**Keyboard Layout**		Selects the language that your USB or Bluetooth Keyboard supports ● For the information of using Keyboard ➡ (p. 110)
		Shipping Condition		Resets all settings to the original condition (p. 62)
		System Update		Downloads new software to this TV (p. 63)
		Software Licence		Displays the software licence information
		System Information		Displays the system information of this TV
		Device Information		Displays the device information of this TV
	Other Settings	**GUIDE Plus+ Settings**	**Update**	Performs the update of the GUIDE Plus+ schedule and advertising information for the GUIDE Plus+ system (only available in some countries) (p. 25)
			Postcode	Sets your postcode to display advertisements in the GUIDE Plus+ system (only available in some countries) (p. 25)
			System Information	Displays the system information of the GUIDE Plus+ system (only available in some countries)
		Power on Preference		Automatically selects the input when the TV is turned on **[TV] / [AV]** ● Set to [TV] to view picture from TV tuner. Set to [AV] to view input from the external equipment connected to the AV1 or HDMI1 terminal, e.g. set top box. ● The external equipment must be switched on and sending a control signal for automatic switching at power on to occur.
		USB Charge in Standby		Enables to supply the power from the USB port in Standby mode **[Off] / [On]** ● Available for charging the rechargeable 3D Eyewear (optional) ● This function is available when in Standby mode.

Menu		Item	Adjustments / Configurations (alternatives)
Setup	**Other Settings**	**Power Save**	Reduces brightness of the picture to economise on power consumption **[Off] / [On]**
		Time Zone	Adjusts the time data ● The time data will be corrected based on GMT.
		Exchange Channel List	Exports / Imports DVB-S Channel List settings using the SD Card to share the same settings with VIERA which has the same function

*The settings in [Tuning Menu] are applicable only for the selected TV mode. The menu name varies depending on the TV mode. ([DVB-S Tuning Menu] / [DVB-C Tuning Menu] / [DVB-T Tuning Menu] / [Analogue Tuning Menu])
● A different menu will be displayed when [Advance(isfccc)] in the Setup Menu is set to [On] or in the mode of Media Player / network service operations. (p. 64, 71 - 80, 88 - 91)
● Only available items can be selected.

Retuning from Setup Menu

Automatically retune the channels received in the area.
- This function is available if channel tuning is already performed.
- Only the selected mode is retuned. All the previous tuning settings are erased.
- If Child Lock PIN number (p. 59) has been set, the PIN number is required.
- If tuning has not been done completely ➡ **[Manual Tuning] (p. 54)**

Update DVB channel automatically [Update Channel List]

You can add new channels, delete removed channels, update channel name and position automatically to the channel list.

DVB-T Update Channel List			
Progress	CH 5		69
This will take about 3 minutes.			
CH	Channel Name	Type	Quality
- The channel list is updated while keeping your settings in [Favourites Edit], [Channel List], [Child Lock], etc.
- Depending on the signal condition, the update may not work properly.

- To update DVB-S channels, set [Satellite], [Search Mode] and [Scan Mode] before updating.

DVB-S Update Channel List Settings	
Satellite	Astra 19.2° E
Search Mode	Free Channels
Scan Mode	Quick
Start scan	

select

access / store
- After settings, select [Start scan].

Display a notification message [New Channel Message] (DVB)

Selects whether to give a notification message when a new DVB channel is found.

New channels found!
Press OK to update channel list.
Press EXIT to ignore.

- Selecting OK will perform [Update Channel List].

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.
A good Signal Strength is not an indication of suitable signal for DVB reception.
Use the Signal Quality indicator as follows.
- Green bar: Good
- Yellow bar: Poor
- Red bar: Bad (Check the Terrestrial aerial, cable or Satellite dish)

- To change the channel

∧
∨

Example:

DVB-C Signal Condition	
Channel Name	70 CBBC Channel
Signal Quality	80 %
Signal Strength	80 %
Bit Error Rate	0.00E+00
Network Name	Wenvoe
Parameter	802.00 MHz, 64 QAM, 6940 kS/s
These bars show the maximum signal value of the selected channel.

Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder or the USB HDD. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode.

TV Guide may also be used to set timer programming event (p. 26).

● This function is not available in Analogue mode.
● Timer Programming can store up to 15 events.
● Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
● For recording using Timer Programming, the TV must be either on or in Standby. For reminders to be displayed, the TV must be on.
● No other channel can be selected while the recording of Timer Programming is in progress.
● Recording an encrypted (copy-protected) programme may not be possible.
● When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV. If a recorder compatible with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 94, 95) and [Link Settings] (p. 43) are completed, no setting of the recorder is required. Also read the manual of the recorder.
● If the recorder is not compatible with Q-Link, VIERA Link or similar technologies, make timer programming of the recorder. For preparations of a recorder, read the manual of the recorder.
● For more information of the USB HDD Recording ➡ **(p. 66, 107)**
● Recording to the external equipment via SCART is always in standard definition (composite video), even if the original programme is in high definition.
● 2 minutes before the starting time, a reminder message appears if you are watching TV.

　• To remove the message and start the programming　　　• To cancel the programming

1 Start making the settings

2 Select the function ([Ext Rec.], [USB HDD Rec.] or [Reminder])

[Ext Rec.] / [USB HDD Rec.]:

Records the programme to the external recorder or the USB HDD.
When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.
For [USB HDD Rec.], you can select a recording mode:
[DR]: Direct recording (normal mode)
[LT1]: Long time recording
[LT2]: Extra long time recording
➡ **"Recording time for the USB HDD" (p. 107)**

[Reminder]:

Reminds you to watch the programme.
When you are watching TV, a reminder message appears 2 minutes before the start time.
Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)

Set items in the order of **1** to **4**.

select the item ➡ set

● **1**, **3** and **4** can also be entered with numeric buttons.

! : Overlapped timer programming events

Records with subtitles (if available)
● To indicate this

■ To unlock the tuner and stop recording

 GUIDE ➡ EXIT

Note

● Check that the LED is orange. If not, timer programming events are not active or not stored.
● Timer Programming reminder messages will remain displayed until one of the following occurs:
  • You press the OK button to view the programme or the EXIT button to cancel the reminder.
  • The timer programming event that the reminder is set for ends.
● "!" identifies that two or more timer programming events are overlapped. [Ext Rec.] and [USB HDD Rec.] are given priority over [Reminder]. As for the overlapped recording events, the first event starts and finishes as programmed. The next event can then start.
● The recording of Timer Programming will automatically change to the programmed channel a few seconds before the start time.
● To stop recording the timer programming event, it may be necessary to stop the recorder manually.
● The recording of Timer Programming will be performed even if the TV is in [REW LIVE TV] recording (p. 69) or [Pause Live TV] recording (p. 97). In this case, [REW LIVE TV] recording or [Pause Live TV] recording will be cancelled.

Child Lock

You can lock specific channels / AV input terminals and control who watches them.
When the locked channel / input is selected, a message appears. Enter the PIN number to watch.

USB HDD Recording

You can record the digital TV programmes to the connected USB HDD and enjoy playing back in various ways.
● Analogue TV programme cannot be recorded on the USB HDD.
● The data broadcasting (MHEG, etc.), radio broadcasting and the periods without any signal will not be recorded.
● Not all the programmes can be recorded depending on the broadcaster and service provider.
● You cannot copy the recorded contents of the USB HDD.
● For more information of the USB HDD ➡ **(p. 107)**

┌─ **Caution** ─┐

● All data in the USB HDD will be erased in the following cases:
  • When formatting the USB HDD with this TV ➡ **"Setting for USB HDD" (see below)**
  • When formatting the USB HDD to use on PC, etc.
● When the TV is repaired due to a malfunction, you may have to format the USB HDD again with this TV to use it. (All data will be erased when formatting.)
● In order to use the USB HDD with your PC after recording with this TV, format it again on your PC. (Special operations or tools may be necessary to format on your PC. For details, read the manual of the USB HDD.)
● The data recorded on the USB HDD with this TV can only be played back on this TV. You cannot play back its contents with another TV (including the TV of the same model number) or any equipment.
● Do not turn the TV off, pull out the mains plug or remove the USB HDD during operation (formatting, recording, etc.). It may cause malfunction of the device or damage the recorded data. (Also when the electric outage occurs.)

■ Preparation for USB HDD

Connect the USB HDD to the USB 1 port with the USB cable.
● Be sure to connect the USB HDD to the socket outlet.
● To remove the USB HDD safely from the TV ➡ **(p. 22, 67)**
● Check the type of terminals and cable plugs are correct when connecting.

  (For SD Card or USB Flash Memory) Moving pictures recorded by digital video cameras will be played back.

Recorded TV mode:
  (For exclusive USB HDD) TV programmes recorded on the USB HDD with this TV will be played back.

Music mode:
  Digital music data will be played back.

● During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 43). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 93) and set to use theatre speakers (p. 99).
● [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".
● The picture may not appear correctly on this TV depending on the recording equipment used.
● Display may take some time when there are many files and folders.
● Partly degraded files might be displayed at a reduced resolution.
● Picture setting may not work depending on the conditions.
● The folder and file names may be different depending on the digital camera or digital video camera used.

■ To insert or remove the SD Card / USB Flash Memory

● For the USB HDD Connection ➡ **(p. 66)**

USB Flash Memory
● Insert or remove straightly and completely.
● Before removing the USB Flash Memory, ensure to perform "Safely remove USB" (p. 22).
● Connect the USB Flash Memory to the USB 1, 2 or 3 port.

SD Card

① Gently insert the SD Card with the label surface facing front.

② Push until a click is heard. To remove, push it again.

Cutout
● Check the type of terminals and devices are correct when connecting.
● For the information of the devices ➡ **"Devices for recording or playing back" (p. 107)**
● For the supported file format ➡ **"Supported file format in Media Player and media servers" (p. 104, 105)**

1 Insert the SD Card or USB Flash Memory to the TV
➡ **(p. 70)**
● To play back contents in the USB HDD, check the connection and settings are completed. ➡ **(p. 66, 67)**

2 Confirm the message and start Media Player

Using Media Player

Using Network Services (DLNA / VIERA Connect)

DLNA®

This TV is a DLNA Certified™ product.
DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.
● To enable this function, connect this TV to your home network.
  ➡ **"Network connections" (p. 83), "Network Setup" (p. 84)**

■ Playback of sharing contents stored in the media server

Store photos, videos or music contents into the DLNA Certified media server (for example, PC with Windows 7 installed, DIGA Recorder, etc.) connected to your home network. And then you can enjoy these contents on this TV.
● For watching and operating contents on this TV ➡ **(p. 88)**
● For the supported file format ➡**(p. 104, 105)**

To use a PC as a media server
Prepare the PC with Windows 7 or ensure the server software is installed on the PC.
"Windows 7" and "TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)" are the server software that has been tested for compatibility with this TV (as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.
● Windows 7
  The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
● TwonkyMedia server
  "TwonkyMedia server" is the product of PacketVideo Corporation.
  To obtain the Installation Guides for installing and setting "TwonkyMedia server", visit the website of TwonkyMedia.
  Additional fees may be charged to obtain server software.

> **Note**

● For more information about the server software, please consult each software company.
● When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.
● AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 70).

To use a DLNA compatible DIGA Recorder as a media server
By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.
● Please read the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

■ Playback of sharing contents on this TV with the DMC (Digital Media Controller) network equipment

You can enjoy contents stored in the media server by controlling with the DMC network equipment (PC with Windows 7 installed, smartphone, etc.) connected to your home network.
● To use this function with Windows 7, set [DLNA Remote Control] and [DLNA Remote Volume] of this TV to [On].
  ➡ **(p. 84)**
● "Windows 7" is the OS that has been tested for compatibility of this TV (as of January, 2011). For the operations, refer to the help functions of Windows 7.
● To use this function with your smartphone, set [Network Remote Control] of this TV to [On]. ➡**(p. 84)**
  And you need to install the application for controlling VIERA in your smartphone. For the information of the application (English only):
  http://panasonic.jp/support/global/cs/tv/
  For the operations, refer to the support information of the application.

■ Sharing the TV programme or contents of this TV with the other network equipment

You can enjoy the current digital TV programme or the contents*¹ of this TV on the other DLNA Certified VIERA*², your smartphone, etc. connected to your home network.

For example, watching the continuation of the current programme on your smartphone in the other room, etc.
● To use this function, set [DLNA Server Settings] of this TV. ➡ **(p. 84)**
● To use this function with the other VIERA, select a name or MAC Address of this TV from the DLNA server list of the other VIERA, and then select the content to operate. Also refer to the manual of the other VIERA.
● To use this function with your smartphone, you need to install the application for controlling VIERA in your smartphone. For the information of the application (English only):
  http://panasonic.jp/support/global/cs/tv/
  For the operations, refer to the support information of the application.
*1: Available contents:
  • Contents that can be played back by Media Player of this TV and other network equipment
  • TV programmes recorded on the USB HDD with this TV
*2: DLNA Certified VIERA of before the year 2009 may not be available. The compatibility with future products is not guaranteed.

Note

● When using this function, this TV must be on.
● This function is available only with 1 piece of other equipment.
● You may be able to control this TV for turning off the screen and muting the sound from your smartphone. For details, refer to the support information of the application.
● This function may not be available in the following conditions of this TV:
  • While the recording is in progress.
  • While Video mode or Recorded TV mode in Media Player.
  • When in VIERA Connect.
  • When accessing the media server.
  • When the data service is active.
  • When watching encrypted (copy-protected) programmes.
  • When the broadcast prohibits the output of video and audio.

VIERA Connect

VIERA Connect is a gateway to the internet services unique to Panasonic.
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, communication tools, etc. from VIERA Connect home screen.
● To enable this function, connect this TV to a broadband network environment.
  ➡ **"Network connections" (p. 83), "Network Setup" (p. 84)**
● For details about VIERA Connect operation ➡ **(p. 19)**

Note

● VIERA Connect home screen is subject to change without notice.
● This TV does not support full web browser function and some features of the websites may not be available.
● Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
  You can update the software later manually. ➡ **[Software Update] in [Network] (p. 87)**
● The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
● Some content may be inappropriate for some viewers.
● Some content may only be available for specific countries and may be presented in specific languages.
● Depending on the connection environment, the internet connection may be slow or may not be successful.
● During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 43). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 93) and set to use theatre speakers (p. 99).
● You can restrict access to VIERA Connect. ➡ **[Child Lock] (p. 59)**
● VIERA Connect is not available while the recording of Timer Programming, Direct TV Recording or One Touch Recording is in progress.

Network connections

To use only DLNA features, you need a home network environment and you can operate the features without broadband network environment.

To use VIERA Connect features, you need a broadband network environment.

● If you do not have any broadband network services, please consult your retailer for assistance.

● Dial-up internet connections cannot be used.

● Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

Example 1
(For DLNA and VIERA Connect)

Wireless connection

Access point

Built-in wireless LAN

Smartphone

Internet environment

Wired connection

LAN cable (Unshielded)

Hub or Router

DLNA Certified VIERA

DLNA Certified media server (for example, PC, DIGA Recorder, etc.)
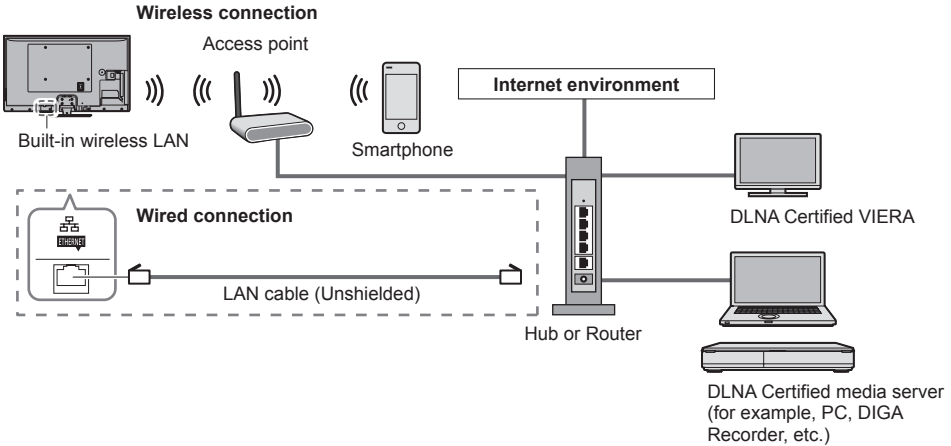

● Ensure to use a LAN straight cable for this connection.

● Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.

● If your modem has no broadband router functions, use a broadband router.

● If your modem has broadband router functions but there are no vacant ports, use a hub.

● Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.

● If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For VIERA Connect)

You can connect this TV and the telecommunication equipment directly to use VIERA Connect features.

LAN cable (Unshielded)

Internet environment
Note

● Contact your Internet Service Provider (ISP) telecommunications company for further assistance regarding the network equipment.

● Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.

● Turn the TV off, and then on again when changing or reconnecting the network connection.

Network Setup

● Ensure the connections are completed before starting Network Setup.

Q-Link

Preparations
● Connect the DVD Recorder / VCR with the following logos:
  "Q-Link", "NEXTVIEWLINK", "DATA LOGIC (a trademark of Metz Corporation)", "Easy Link (a trademark of Philips Corporation)", "Megalogic (a trademark of Grundig Corporation)", "SMARTLINK (a trademark of Sony Corporation)"
● Q-Link connection ➡ **(p. 92)**
● Use fully wired SCART cable.
● Set up the DVD Recorder / VCR. Read the manual of the recorder.
● Q-Link terminal setup in the Setup Menu ➡ **[AV1 out] (p. 43)**
● Download preset - channel, language and country / region settings ➡ **"Preset download" (see below)**

Features available

Preset download

Channel, language and country settings can be downloaded to the recorder.
● DVB-S and DVB-C channel settings cannot be downloaded.
● To download settings
  ➡ **[Download] (p. 43), [Auto Setup] (p. 15, 16, 48)**

Direct TV Recording - What you see is What you record

Records the current programme in DVD Recorder / VCR immediately. (When USB HDD for recording is connected in DVB mode, [One Touch Recording] starts.)
● Confirm the code of the remote control is "73" (p. 30).

REC
● Available conditions:

Picture source	Mode	Recording from
Analogue	TV	TV monitor out
	AV	Recorder's tuner
DVB (USB HDD for recording is not connected)	TV	TV monitor out
AV (watching recorder's tuner)	AV	Recorder's tuner
AV (watching recorder's external input)	AV	Recorder's external input
AV (watching TV's external input)	AV	TV monitor out

● When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
● You can change channel or turn the TV off while the recorder is recording from its own tuner.
● Changing channel is not available while the recorder is recording from the TV tuner.

■ To stop recording

GUIDE ➡ Unlock the tuner

Tuner Locked
Press EXIT to unlock and stop recording

EXIT
(×)

Power on link and Easy playback

Set Power on Link [On] in the Setup Menu to use this function ➡ [Power on Link] (p. 43)
When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link

Set Power off Link [On] in the Setup Menu to use this function ➡ [Power off Link] (p. 43)
When TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
● This function works even if the TV enters Standby mode automatically by auto power standby function.

Note
● Some recorders are not applicable. Read the manual of the recorder.

VIERA Link "**HDAVI Control™**"*

Enjoy additional HDMI Inter-Operability with Panasonic products which have "HDAVI Control" function.
This TV supports "HDAVI Control 5" function.
Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and
SCART cables allow you to interface them automatically (p. 92, 93).
These features are limited to models incorporating "HDAVI Control" and "VIERA Link".
● Some functions are not available depending on the equipment's version of HDAVI Control. Confirm the connected
  equipment's version of HDAVI Control.
● VIERA Link "HDAVI Control", based on the control functions provided by HDMI which is an industry standard known
  as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added.
  As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.
● Please refer to individual manuals for other manufacturers' equipment supporting VIERA Link function.
● About applicable Panasonic equipment, consult your local Panasonic dealer.

Preparations
● Connect the equipment supporting VIERA Link.
● VIERA Link connection ➡ **(p. 92, 93)**
● Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
  Recommended Panasonic's HDMI cable part number:
   • RP-CDHS15 (1.5 m)   • RP-CDHS30 (3.0 m)   • RP-CDHS50 (5.0 m)
● Use fully wired SCART cable.
● Set up the connected equipment. Read the manual of the equipment.
● For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the
  recorder.
● Download preset - channel, language and country / region settings ➡ **"Preset download" (see below)**
● Set [VIERA Link] to [On] in the Setup Menu. ➡ **[VIERA Link] (p. 43)**
● Set up the TV.
  After connection, turn the equipment on and then switch the TV on.
  **Select the input mode from HDMI1, HDMI2, HDMI3 or HDMI4 (p. 29), and make sure that an image is displayed
  correctly.**
    This setup should be done each time when the following conditions occur:
     • for the first time
     • when adding or reconnecting equipment
     • when changing setup

Features available

Preset download

Channel, language and country / region settings can be downloaded to the recorder.
● DVB-S and DVB-C channel settings cannot be downloaded.
● To download settings
  ➡ **[Download] (p. 43), [Auto Setup] (p. 15, 16, 48)**

Easy playback

Automatic input switching - When the connected equipment is operated, input mode is switched automatically. When it
is stopped operating, input mode is returned.

Power on link

Set Power on Link [On] in the Setup Menu to use this function ➡ [Power on Link] (p. 43)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the
TV is automatically turned on. (Only when the TV is in Standby mode.)

Power off link

Set Power off Link [On] in the Setup Menu to use this function ➡ [Power off Link] (p. 43)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
● This function will work even if the TV enters Standby mode automatically by auto power standby function.

Link Functions (Q-Link / VIERA Link)

95

Reduce unnecessary power consumption in Standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function ➡ **[Standby Power Save] (p. 43)**
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV on / off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time fast.
● This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
● This function works when [Power off Link] is set to [On].

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function
➡ **[Intelligent Auto Standby] (p. 43)**
When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI or when Speaker Selection is changed to [TV] (except for watching a disc).
● If you select [On (With reminder)], the on-screen message will be displayed before the connected equipment turns to standby.
● This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Records the current programme in the DIGA Recorder immediately.
● If you connect a variety of recorders including other manufacturers' recorders at the same time, connect the DIGA Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder to HDMI1.
● If you cannot operate, check the settings and the equipment.
  ➡ **"Summary of Q-Link and VIERA Link features" (p. 92, 93), "Preparations" (p. 95)**
● To record the programme which DIGA Recorder does not support, SCART connection is required and the programme is recorded by Q-Link function (p. 94).
● Depending on the programme, SCART connection may be required to record.
● You can change channel or turn the TV off while the recorder is recording from its own tuner.
● You can not change channel while the recorder is recording from the TV tuner.

+
−
```

● Mute

MUTE
🔇

● The sound of TV speakers is mute.
● When the equipment is turned off, TV speakers will be active.

[TV]:
TV speakers are active.

Multi-channel sound

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with HDMI cable and Optical digital audio cable (p. 93), and then select [Home Cinema]. If your Amplifier has "HDAVI Control 5" function, you only need to connect it with HDMI cable to the TV's HDMI2 terminal.
To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 93).

Note

● These functions may not work properly depending on the connected equipment.
● Image or sound may not be available for the first few seconds when input mode is switched.
● "HDAVI Control 5" is the newest standard (as of November, 2011) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
● To confirm this TV's version of HDAVI Control ➡ **[System Information] (p. 46)**
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment.
For other connections, consult the instructions for each piece of equipment, the basic connection (p. 12 - 14), the table (p. 102), and the specifications (p. 118, 119).
● Check the type of terminals and cable plugs are correct when connecting.

Technical Information

Auto Aspect

The optimum size and aspect can be chosen automatically, and you can enjoy finer images.

■ Aspect Control Signal

[WIDE] will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.
The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio.
This function will work in any aspect mode.

Input terminal	Input signal format	Aspect Control Signal	
		Widescreen signal (WSS)	Control signal through SCART (pin8) / HDMI terminal
Satellite	DVB-S	◯	
Cable RF	DVB-C	◯	
	DVB-T	◯	
	PAL B, G, H, I, D, K	◯	
	SECAM B, G, L, L', D, K	◯	
	PAL 525/60 6.5 MHz	–	
	PAL 525/60 6.0 MHz	–	
	PAL 525/60 5.5 MHz	–	
	M.NTSC 6.5 MHz	–	
	M.NTSC 6.0 MHz	–	
	M.NTSC 5.5 MHz	–

	750 (720) / 60p, 50p	–	
	1,125 (1,080) / 60i, 50i	–	
HDMI1 HDMI2 HDMI3 HDMI4	525 (480) / 60i, 60p	–	◯
	625 (576) / 50i, 50p	–	◯
	750 (720) / 60p, 50p	–	◯
	1,125 (1,080) / 60i, 50i	–	◯
	1,125 (1,080) / 60p, 50p, 24p	–	◯

■ Auto mode

Auto mode determines the best aspect ratio to fill the screen using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen).
This process may take several minutes, depending on the darkness of the image.
Letterbox detection:
If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.
If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

> **Note**
> ● The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.
> ● If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.

Technical Information

Supported file format in Media Player and media servers

■ Photo

Format	File extension	Image resolution (pixel)	Details / Restrictions
JPEG	.jpg .jpeg .mpo	8 × 8 to 30,719 × 17,279	DCF and EXIF standards Sub-sampling: 4:4:4, 4:2:2, 4:2:0 ● Progressive JPEG is not supported.

• Do not use two-byte characters or other special codes for data.
• The device may become unusable with this TV if the file or folder names are changed.

DivX

DivX Certified® to play DivX® and DivX Plus® HD (H.264/MKV) video up to 1080p HD including premium content.
ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, LLC, a subsidiary of Rovi Corporation. This is an official DivX Certified®
device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX
videos.

■ Subtitle text file of DivX

Subtitles format - MicroDVD, SubRip, TMPlayer
● The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the
  file extensions.
● If there are more than one subtitles text files inside the same folder, they are displayed in the following order of
  priority:
  ".srt", ".sub", ".txt".
● To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display
  Option Menu.
● Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be
  displayed, or the subtitles may not be displayed at all.

Note
● Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be
  displayed in the order you numbered.
● Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
● When there are many files and folders, operation may take time to complete or some files may not be displayed or
  playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To
obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information
on how to complete your registration.

■ To show DivX VOD registration code
➡ **[DivX® VOD] (p. 46)**
● If you want to generate the new registration code, you have to deregister the current registration code.
  After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the
  Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and
  you will not be able to play any contents that you purchased using the current registration code.
  You will obtain the new registration code by pressing the OK button on the deregistration code screen.
● If you purchase DivX VOD content using a registration code different from this TV's code, you will not be able to play
  this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

■ Regarding DivX content that can only be played a set number of times
Some DivX VOD content can only be played a set number of times.
When you play this content, the remaining number of plays is displayed. You cannot play this content when the number
of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
● When playing this content, the number of remaining plays is reduced by one in the following conditions:
  • If you exit the current application.
  • If you play the other content.
  • If you go to the next or previous content.

Devices for recording or playing back

■ SD Card

Card format:

  SDXC Card - exFAT

  SDHC Card / SD Card - FAT16 or FAT32

Compliant card type (maximum capacity):

  SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring
  miniSD adaptor)

● If miniSD Card is used, insert / remove it together with the adaptor.
● Check the latest information on the card type at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/
● Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

(diagram of SD card: 2.1 mm, 32 mm, 24 mm)
■ USB Flash Memory (for playing back in Media Player)

USB Flash Memory format: FAT16, FAT32 or exFAT

● A USB HDD formatted by PC is not guaranteed in Media Player.

■ USB HDD (for recording the digital TV programmes with this TV and playing back in Media Player)

The capacity of USB HDD that has been tested for the performance with this TV is from 160 GB to 3 TB.

● Connect the USB HDD to the socket outlet to record and play back properly with this TV.
● Use the USB HDD formatted with this TV. ➡ **(p. 66)**
● Regarding the performance, not all USB HDDs are guaranteed. Check the USB HDDs that have been tested for the
  performance with this TV at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

> **Note**

● Data modified with a PC may not be displayed.
● Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
● Do not touch the pins on the device.
● Do not subject the device to a high pressure or impact.
● Insert the device in the correct direction. Otherwise this can damage device or TV.
● Electrical interference, static electricity, or erroneous operation may damage the data or device.
● Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV.
  Panasonic is not liable for any deterioration or damage of recorded data.

Recording time for the USB HDD

Recording mode		USB HDD (1 TB)
[DR]	**For HD broadcast**	87 hours
	For SD broadcast	217 hours
[LT1]		290 hours
[LT2]		580 hours

● These recording times are approximate for the continuous recording. Actual recording time may be different.
● The recording time of [DR] mode may change depending on the bit-rate of the broadcast.
● Depending on the broadcast (for example when the bit-rate is low), the recording time may not increase even if in
  [LT1] / [LT2] mode.
● Only the selected subtitle and multi audio are recorded in [LT1] / [LT2] mode.

HDMI connection

HDMI (high-definition multimedia interface) is the world's first complete digital consumer AV interface complying with a non-compression standard.
HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.
HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.
For more information about connections ➡ **(p. 13, 100)**

■ Applicable HDMI features

- Input audio signal:
  2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal:
  ➡ **"Input signal that can be displayed" (p. 111)**
  Match the output setting of the digital equipment.
- Input PC signal:
  ➡ **"Input signal that can be displayed" (p. 111)**
  Match the output setting of the PC.

- VIERA Link (HDAVI Control 5)
  ➡ **[VIERA Link] (p. 95)**
- 3D
- Content Type
- Deep Colour
- x.v.Colour™
- Audio Return Channel*2
  (HDMI2 terminal only)

■ DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3.
When the DVI to HDMI adaptor cable is used, connect the audio cable to AUDIO terminal with the supplied AV2 (COMPONENT / VIDEO) adaptor.

> **Note**
> - Audio settings can be made on [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 42)
> - If the connected equipment has an aspect adjustment function, set the aspect ratio to "16:9".
> - These HDMI connectors are "type A".
> - These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
> - Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.
> - This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

USB connection

● It is recommended to connect the USB HDD, USB Flash Memory or Communication Camera to the TV's USB ports directly.
● Some USB devices or USB HUB may not be used with this TV.
● You cannot connect any devices by using USB card reader.
● You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory or USB HDD.
● Additional information for the devices may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

Bluetooth Setup

You can use Bluetooth keyboards*[1] and Bluetooth audio devices*[2] (headphones, etc.) with this TV by setting [Bluetooth Setup] in the Setup Menu (p. 43).
*1: HID (Human Interface Device Profile) compliant keyboards are available.
*2: A2DP (Advanced Audio Distribution Profile) compliant audio devices are available.

Menu		Item	Adjustments / Configurations (alternatives)

Setup	Bluetooth Setup	Devices	Searches and registers the available devices
			● You cannot use two or more A2DP compliant audio devices simultaneously.
			[Not paired]:
			  The device is not registered. Register the device by following the on-screen instructions to use with this TV.
			[Connected]:
			  The device is registered and you can use with this TV.
			[Not connected]:
			  The device is already registered, but not connected to this TV. Check the device is turned on and the available range.

		Bluetooth Audio Settings	Adjusts the delay time if the sound of the audio device does not synchronise the image ● This function is available only for the Bluetooth audio devices. ● Set [Lip Sync] to [On] and adjust in [Lip Sync Adjustment].

● To adjust volume of this audio device ➡ **[Headphone Volume] (p. 41)**
● This setup is not for the 3D Eyewear supporting Bluetooth wireless technology.
● Additional information for the devices may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

Operations from Keyboard / Gamepad

■ USB Keyboard / Bluetooth Keyboard
● The Keyboard requiring its driver is not supported.
● To change the language type ➡ **[Keyboard Layout] (p. 46)**
● Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
● Some of the keys of keyboards may correspond to the operation of the remote control.

Keyboard	Remote Control	Keyboard	Remote Control
↑ / ↓ / ← / →	Cursor buttons	F2	VIERA TOOLS
Enter	OK	F3	MENU
Backspace	BACK/RETURN	F4	INPUT (AV)
Esc	EXIT	F5 / F6	Channel Down / Up
0 - 9 / Character	Numeric buttons	F7 / F8	Volume Down / Up
F1	GUIDE	F9 / F10 / F11 / F12	Coloured buttons

■ USB Gamepad
● Check the gamepads that have been tested for the performance with this TV at the following website. (English only) http://panasonic.jp/support/global/cs/tv/
● Some of the keys of gamepads correspond to the operation of the remote control.

Example:
	Remote Control		Remote Control
1	Volume Up / Down	7	VIERA TOOLS
2	Channel Up / Down	8	EXIT
3	GUIDE	9	INPUT (AV)
4	OK		
5	BACK/RETURN	10	MENU
6	INTERNET	11	Cursor buttons

Characters table for numeric buttons

You can enter characters by using numeric buttons for free input items.

Press the numeric button repeatedly until you reach the desired character.

● The character is set automatically if you leave for 1 second.
● You can also set the character by pressing the OK button or other numeric buttons within 1 second.
● The characters may vary depending on the input items.

Characters table:

Numeric buttons	Characters	Numeric buttons	Characters
1	. @ / 1 ! : # + - * _ ( ) " ' % & ? , ; = $ [ ] ~ < > { } | ` ^ \	**6**mno	m n o 6 M N O
2abc	a b c 2 A B C	**7**pqrs	p q r s 7 P Q R S
3def	d e f 3 D E F	**8**tuv	t u v 8 T U V
4ghi	g h i 4 G H I	**9**wxyz	w x y z 9 W X Y Z
5jkl	j k l 5 J K L	**0**	Space 0

Input signal that can be displayed

■ COMPONENT (Y, P_B, P_R) (from AV2 terminal), HDMI

Signal name	COMPONENT	HDMI
525 (480) / 60i, 60p	◯	◯
625 (576) / 50i, 50p	◯	◯
750 (720) / 60p, 50p	◯	◯
1,125 (1,080) / 60i, 50i	◯	◯
1,125 (1,080) / 60p, 50p, 24p		◯

◯ : Applicable input signal

■ PC (from HDMI terminal)

| Signal name	Horizontal frequency (kHz)	Vertical frequency (Hz)
640 × 480 @60 Hz	31.47	60.00
1,280 × 720 @60 Hz	45.00	60.00
1,920 × 1,080 @60 Hz	67.50	60.00

Applicable input signal for PC is basically compatible to HDMI standard timing.

> **Note**
> ● Signals other than above may not be displayed properly.
> ● The above signals are reformatted for optimal viewing on your display.
> ● PC signal is magnified or compressed for display, so that it may not show fine detail with sufficient clarity.

Technical Information

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem.
If the problem still persists, please contact your local Panasonic dealer for assistance.

Block noise, frozen or disappearing image occurs in DVB mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned
● Check the position, direction and connection of the aerial or dish.
● Check [Signal Condition] (p. 55). If [Signal Quality] is displayed in red, the DVB signal is weak.
● Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, the high pressure can cause poor reception of some channels.
● Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
● Turn the TV off with the Mains power On / Off switch, and then on again.
● If problem persists, consult your local dealer or service provider for the availability of services.

DVB-S Auto Setup cannot be done completely
● Check connections and dish alignment. ➡ **(p. 49)**
● If the problem persists, consult your local dealer.

No programmes shown on TV Guide
● Check the digital transmitter.
● Adjust the direction of the aerial or dish to another transmitter installed nearby.
● Check the analogue broadcast. If the image quality is poor, check the aerial and consult your local dealer.

Neither image nor sound is produced
● Check the TV is turned on.
● Check the mains lead is plugged into the TV and the socket outlet.
● Check the TV is in AV mode.
● Check the correct input mode is selected.
● Check the Picture Menu (p. 38 - 40) and volume.
● Check all required cables and connections are firmly in place.

Auto aspect
● Auto aspect is designed to provide you with the best ratio to fill the screen. ➡ **(p. 103)**
● Press the ASPECT button if you want to change the aspect ratio manually. ➡ **(p. 23)**

Black and white picture
● Check that the output of the external equipment matches the input of the TV.
  When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

Q-Link function does not work
● Confirm SCART cable and connection.
  Also set [AV1 out] in the Setup Menu. ➡ **(p. 43)**

[VIERA Link] function does not work and an error message appears
● Confirm the connection. ➡ **(p. 92, 93)**
● Turn the connected equipment on and then switch the TV on. ➡ **(p. 95)**

Recording does not start immediately
● Check the settings of the recorder. For details, read the manual of the recorder.

The screen becomes dim
● This occurs when the contrast is lowered automatically to avoid image retention in the following conditions without any user operation for a few minutes:
  • No signal in DVB or AV mode
  • Selected locked channel
  • Selected invalid channel
  • Selected radio channel
  • Displayed menu
  • Thumbnail or still picture

	Problem	Causes / Actions
Screen	**Chaotic image, noisy**	●Set [P-NR] in the Picture Menu to remove noise. ➡ **(p. 39)** ●Check nearby electrical products (car, motorcycle, fluorescent lamp).
	No image can be displayed	●Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum? ➡ **(p. 38)** ●Check the setting of [AV2] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. (p. 29)
	Blurry or distorted image (no sound or low volume)	●Reset channels. ➡ **(p. 48 - 51)**
	Unusual image is displayed	●Turn the TV off with Mains power On / Off switch, then turn it on again. ●If the problem persists, initialise all settings. ➡ **[Shipping Condition] (p. 62)**
Sound	**No sound is produced**	●Is "Sound mute" active? ➡**(p. 10)** ●Is the volume set to the minimum?
	Sound level is low or sound is distorted	●Sound signal reception may be deteriorated. ●Set [MPX] (p. 41) in the Sound Menu to [Mono]. (Analogue)
	Unusual sound from the TV	●When power is on, drive noise may be heard from inside the TV (not a sign of faulty operation).
3D	**Cannot view 3D images**	●Has the 3D Eyewear been switched on, set to 3D mode and registered with this TV? For details, read the manual of the 3D Eyewear. ●Check the remaining battery level of the 3D Eyewear. (Battery status is displayed on the screen when the 3D Eyewear is turned on.) ●Does the 3D Eyewear support Bluetooth wireless technology? ➡ **(p. 32)** ●Ensure that [3D Mode Selection] is set to [3D]. ➡ **(p. 33)** ●Some 3D image signals may not be automatically recognised as 3D images. Set [3D Mode Selection (Manual)] to match the picture format. ➡ **(p. 34)** ●Use the 3D Eyewear within approximately 3.2 m from the TV. ●Check that there are no obstacles between the TV and the 3D Eyewear. ●For some people, the 3D images may be difficult to see, or cannot be seen, especially in users who have a different level of eyesight between the left and right eyes. Take the necessary steps (wearing glasses etc.) to correct your eyesight before use.
	3D Eyewear is turned off automatically	●Check that there are no obstacles between the TV and the 3D Eyewear.
	There is something wrong with the 3D images	●Check the setting of [Picture Sequence] or [Edge Smoother]. ➡ **(p. 35)**
	The indicator lamp does not light when pressing the power button on the 3D Eyewear	●The battery may be running low or flat. Recharge it.
HDMI	**Sound is unusual**	●Set the sound setting of the connected equipment to "2ch L.PCM". ●Check the [HDMI1 / 2 / 3 / 4 Input] setting in the Sound Menu. ➡ **(p. 42)** ●If digital sound connection has a problem, select analogue sound connection. ➡ **(p. 108)**
	Pictures from external equipment are unusual when the equipment is connected via HDMI	●Check the HDMI cable is connected properly. ➡ **(p. 100)** ●Turn the TV and equipment off, then turn them on again. ●Check an input signal from the equipment. ➡ **(p. 111)** ●Use equipment compliant with EIA/CEA-861/861D.

FAQs

Problem	Causes / Actions
Cannot connect to the network	● Check the LAN cable or wireless LAN is connected properly. ➡ **(p. 83)** ● Check the connections and settings. ➡ **(p. 83 - 87)** ● Check the network equipment and network environment. ● The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually. ➡ **(p. 85)** ● The router may be using MAC address filtering (security setting). Confirm the MAC Address of this TV (p. 42) and set the router to use it. ● If the problem persists, consult your Internet Service Provider or telecommunications company.
Cannot select the file during DLNA operations	● Is media server of the connected equipment prepared? ➡ **(p. 81)** ● Check applicable data format. ➡ **(p. 104, 105)** ● Check the settings of [Network Link Settings] ➡ **(p. 84)**
Cannot operate VIERA Connect	● Check the connections and settings. ➡ **(p. 83 - 87)** ● The server or connected line may be busy now.
The TV does not switch on	● Check the mains lead is plugged into the TV and the socket outlet.
The TV goes into Standby mode	● Auto power standby function is activated. ➡ **(p. 11)** ● The TV enters Standby mode about 30 minutes after analogue broadcasting ends.
The remote control does not work or is intermittent	● Are the batteries installed correctly? ➡ **(p. 7)** ● Has the TV been switched on? ● The batteries may be running low. Replace them. ● Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV). ● Situate the TV away from sunshine or other sources of bright light not to shine on the TV's remote control signal receiver.
Parts of the TV become hot	● Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises do not cause any problems in terms of performance or quality.
Permanently lit spots on screen	● Due to production process involved in this technology this may result in some pixels which are permanently lit or unlit. This is not a malfunction.
[Faulty dish] message appears	● The satellite cable might be short-circuited or there might be connection problems of the cable. Check the cable and connection and then turn the TV off with the Mains power On / Off switch, and turn it on again. ● If the message still persists, consult a dish installer for checking the dish and cable.
Overcurrent error message appears	● The connected USB device might cause this error. Remove the device and turn the TV off with Mains power On / Off switch, then turn it on again. ● Check foreign objects are not inside the USB port.
An error message appears	● Follow the message's instructions. ● If the problem persists, contact your local Panasonic dealer or the authorised service centre.

FAQs

114

Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

Regular care:
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:
First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution

- Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
- Take care not to subject the TV's surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]

These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):

This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Customer's Record

The model number and serial number of this product may be found on its rear panel. You should note this serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.

Model Number   **Serial Number**
